

Scientific program

**Congress Venue:
Camera di Commercio di Firenze**

Day 1 (6 th of May)

12.45-14.15 Live surgery 1

SCREEN A

Robotic assisted Radical prostatectomy

SCREEN B

Robotic assisted adrenalectomy

SCREEN C

Endoscopic combined Intra Renal Surgery for a complex case *prerecorded*

14.15 Kidney Transplant Corner

Introduction and state of the art

smartclip (3'): open Kidney transplantation

smartclip (3'): robotic assisted Kidney transplantation

Kidney transplantation: is there still a place for the open approach? [face to face]

15.00-16.30 Live surgery 2

SCREEN A

Laparoscopic partial nephrectomy

SCREEN B

Robotic assisted Ileal Neobladder

SCREEN C

Open approach for complex urethral stricture: “when endourology has to step aside” (*prerecorded*)

Urethroplasty for a recurrent stricture (*prerecorded*)

Urethroplasty for hypospadias

Treatment of female urethral stricture using buccal mucosa

16.30 SIU Lecture

16:40 Lecture The relationship between inflammation and BPH: implications for diagnosis and treatment

17.00-18.30 Live surgery 3

SCREEN A

Laser based enucleation of prostate: mHOLEP

SCREEN B

Robotic assisted simple prostatectomy with urethral sparing approach

SCREEN C

Robotic assisted simple prostatectomy

Day 2 (7 th of May)

08:15 – 09.45 Live Surgery 4

SCREEN A

Robotic assisted ureteral reimplantation (according to Casati Boari Technique)

SCREEN B

Robotic assisted pyeloplasty

SCREEN C

Laser based Enucleation of the prostate: GreenLEP (*prerecorded*)

Seeing Both Sides: Combined Cysto-Nephroscopy and Ureterorenoscopy in ECIRS

Endoscopic Combined Intrarenal Surgery with miniaturized instruments (*prerecorded*)

09.45 Mediterranean Minimally Invasive Surgery in Urology (MMISU) corner

Moderator: Ali Abdelkarim, Selcuk Guven

10.30 – 12.00 Live Surgery 5

SCREEN A

Robotic assisted partial nephrectomy

SCREEN B

Retrograde intrarenal surgery for cancer

SCREEN C

Robotic assisted Augmentation Vaginoplasty (*prerecorded*)

Robotic assisted surgery (*prerecorded*)

Endoscopic surgery for upper urinary tract stone (*prerecorded*)

Laparoscopic surgery (*prerecorded*)

12.00 – 12.30 Lectures' corner

Laparoscopy: is there still a place in 2026?

MIST for the treatment of LUTS for BPO: the dark side of the moon

12.30 – 14.00 - Live surgery 6

SCREEN A

Bilateral Percutaneous Nephrolithotomy

SCREEN B

Robotic assisted oncologic surgery

SCREEN C

Remote Surgical Telementoring for robotic procedure: From Florence to Warsaw [75']

Vapor based treatment of BPO: *Rezum*

14:00 Lunch

15:00 Video Award

16:00 – 17:00 Round table: Robotic Platforms and Surgical Architectures: how do we imagine the future

Single port vs multiport surgery

Multi-Arm Single-Cart vs Modular Robotic Platforms with Independent Arms

Telesurgery vs on site standard surgery

17:00 – 18:15 Live surgery 7

SCREEN A

Retrograde Intrarenal Surgery RIRS

SCREEN B

Percutaneous nephrolithotomy

SCREEN C

Robotic assisted Sacrocolpopexys

18:00 Administrative Assembly

Day 3 (8th of May)

08.15 -08.30 Lecture: Medical Therapy for prostate cancer disease – an update

08.30 – 10:00 Live Surgery 8 (90 min)

SCREEN A

Retrograde intrarenal surgery (with 6.3 F instrument)

SCREEN B

Robotic assisted nephroureterectomy (*SP*) *broadcasted from Milano*

SCREEN C

Retrograde intrarenal surgery for complex stone

Percutaneous Nephrolithotomy in a transplanted patient with continent pouch (*pre-recorded*)

Retrograde Intrarenal Surgery (*RIRS*) (*pre-recorded*)

Moderators: Alberto Saita, Marco De Sio

10.00 – 10.30 Lectures' corner

Integrating new robotic platforms and AI: a win-win synergy

PNL and infections: what we have to know

10.30 – 12.00 Live Surgery 9

SCREEN A

Laser based enucleation of prostate

SCREEN B (pre-recorded)

Robotic assisted (SP) anterior inguinal lymphadenectomy [*broadcasted from Rome*]

SCREEN C

En bloc TURB

En bloc TURB with endoscopic robotic platform [*Broadcasted from Hong Kong*]

3D guided robotic assisted surgery

13.00 Adjourn
