Challenges in
Laparoscopy & Robotics

Since 2004 - Vincenzo Pansadoro Foundation

Celebrating 22 Years of Innovation, Passion, and Surgical Excellence

This 22nd anniversary is more than a milestone — it's a celebration of a vision that has guided us from the very beginning: combining the highest-quality live surgery with cutting-edge scientific discussion.

For over two decades, this formula has defined CILR and made it a truly unique global event.

Over 22 years, more than 500 advanced procedures have been performed live before thousands of urologists from around the world.

The 2026 Rome edition continues this extraordinary legacy with a dynamic and comprehensive scientific program designed to inspire, challenge, and elevate your practice.

CILR 2026 is designed to significantly elevate your robotic and laparoscopic skills. This XXII Edition promises to be our most impactful yet.

We warmly invite you to Rome — where it all began.

Join more than 1,000 colleagues from across the globe for what many call the "Super Bowl of Surgery," the world's premier live surgery meeting in Urology.

The future is here — and it's happening in Rome.

We can't wait to welcome you.
